

## QUALITY, ENVIRONMENTAL & HEALTH & SAFETY ASSURANCE POLICY

At **Ashlea Components** we take pride in delivering the very best in component solutions for our customers. We recognise that meeting and exceeding their requirements is key to continuing our reputation and supporting our reputation and ongoing customer relationships. We also recognise that our operation has an impact on our environment and that the Health, Safety and Welfare of our staff and our visitors is important to our overall success.

To support our commitment to our customers we will operate, maintain and continuously improve our service in all areas. To achieve this we have adopted ISO9001:2008 and have implemented a formal management system to support the continual improvement of our Company.

We have established top level objectives in order to monitor and measure the efficiency of our Company which are regularly reviewed by our Top Management. We are committed to comply with relevant legislation and regulations and aim to eliminate or reduce to control risks and hazards created in the course of our business.

Our systems and procedures are constantly reviewed and changes and alternative solutions and improvements are considered wherever necessary. Our continuous improvement will be driven by the requirements of our customers and our ongoing consideration of our environmental impact during times of change. The basis of our system is to give our customers confidence in the delivery of our products and services

Our staff are fully aware of our Quality, Environmental and Health & Safety assurance policy and that the procedures within the management system are mandatory.

This Policy is reviewed annually within our Management Processes.

A handwritten signature in blue ink, appearing to read 'SH' followed by a long horizontal stroke.
